

William Morris House Cookie Policy

- To make this site work properly, we sometimes place small data files called cookies on your device. Most websites do this.
- A cookie is a small text file that a website saves on your computer or mobile device when you visit the site. It enables the website to remember your actions and preferences (such as login, language, font size and other display preferences) over a period of time, so you don't have to keep re-entering them whenever you come back to the site or browse from one page to another.
- The cookie-related information is not used to identify you personally and the pattern data is fully under our control. These cookies are not used for any purpose other than to:
 - identify if you are on a mobile device (session);
 - for the password to access the members' page only (one calendar month); and
 - to set the time limit for the cookie warning (one day).

- **How to control cookies**

You can control and/or delete cookies as you wish – for details, see aboutcookies.org. You can delete all cookies that are already on your computer and you can set most browsers to prevent them from being placed. If you do this, however, you may have to manually adjust some preferences every time you visit a site and some services and functionalities may not work.

- **Third Party Requests**

The website makes 12 third party requests to enable Google Maps to be integrated into the website. No personal information is transmitted.

- **Table of Cookies**
